UX PROJECTS

[Control My Laptop](#) | **Interactive Prototype** | 2026

- Designed a visual experience with real-time state feedback, making dynamic system changes legible and trustworthy through precise, clean aesthetics
- Iterated on edge states and interaction details to maintain visual clarity across rapidly changing conditions

[Weave](#) | **Enterprise Workflow Tool** | 2025

- Designed data visualization dashboards and information graphics that surfaced status signals and next-step actions, translating complex requirements into clean, high-signal visual communication
- Defined reusable visual patterns and design standards across modules, iterating through critique and testing to maintain consistency and scalability

WORK EXPERIENCE

Product Design Intern | *MindFlow*, New York, NY

February 2026 - Present

- Interpreted written product briefs and translated requirements into polished creative deliverables, from wireframes to high-fidelity UI and Figma prototypes
- Maintained brand consistency and design standards across components, iterating quickly in a fast-paced, feedback-driven environment with strong attention to detail

VFX Compositor | *Company3/Method Inc.*, New York, NY

June 2022 - May 2025

- Produced motion graphics and visual effects for feature films and episodic TV, delivering polished, production-ready visuals under tight deadlines in a high-pressure environment
- Interpreted creative and technical briefs from directors and supervisors, translating ambiguous direction into precise, client-ready visual outcomes
- Collaborated cross-functionally with artists, supervisors, and production teams across multiple simultaneous projects, maintaining organized workflows and meticulous attention to detail

SKILLS
